Monthly premium	\$0.00 per month was \$278.98	▼
Health Deductible	\$0 per person	▼
Rx deductible	\$0 per person	▼
Out-of-pocket max	\$2,000 per person	^
This is the most you'll have to pay for healthcare services during your coverage period (typically 12 months) – think of it as your safety net in the event of a major health problem. Note: monthly premiums don't count towards your out-of-pocket max.

Before deductible is met

After deductible is met

Primary care visit	No charge	No charge
Specialist visit	\$10	\$10
Preventive care visit	No charge	No charge

There are dozens of preventive care services available for free with every plan, including check-ups, counseling, screenings, and immunizations. To learn more, scroll down to the Free Preventive Care section below.

Prescription drugs

Prescription coverage is based on which category a drug falls into. Note that prior authorization may be required for some prescriptions. Some plans may have a separate Rx deductible. Please confirm details in the [Summary of Benefits and Coverages](#).

Tier Selector

In network

	Before deductible is met	After deductible is met
Generic	No charge	No charge
Brand	\$15	\$15
Non-preferred Brand	\$50	\$50
Specialty	\$150	\$150

A generic drug is identical to the brand name drug in form, safety, strength, quality and intended use. Although identical, generic drugs are substantially cheaper than their brand name counterparts.

Labs & imaging

These are tests your doctor may run when diagnosing a condition.

	Before deductible is met	After deductible is met
Urgent care	\$5	\$5
An urgent care center can be a convenient option if you have a non-life-threatening injury and your doctor is not available. Urgent care is usually less expensive than going to the Emergency Room, and will usually have shorter wait times for non-life-threatening injuries.		
Emergency room	25%	25%
This includes services to check for an emergency medical condition* and treatment to keep it from getting worse. These emergency services may be provided in any licensed hospital's emergency room or another place that provides care for emergency medical conditions. *An emergency medical condition is defined as an illness, injury, symptom (including severe pain), or condition severe enough to risk serious danger to your health if you didn't get medical attention right away.
